

Analyse your success to prevent failure

AP164 T&G Cleaner Pro

Use Actichem AP164 T&G Cleaner Pro's cutting edge technology to simplify and boost the effectiveness of your tile and hard surface cleaning operation. Formulated with new nano surfactant chemistry for ultimate penetration and soil release, it provides the professional cleaner with a mildly alkaline cleaning solution which gives dependable results every time.

Recommended applications:

Safe and ideal for use on all man-made tiles, natural stone products, clay products, concrete and grout. Avoid contact with non-ferrous metals, plated metals, painted surfaces and flooring which is coated with an acrylic polymer or wax.

1. **The ultimate tile cleaning workhorse** – Safe for use on all hard floor types.
2. **Safe and easy to use.**

SEPTEMBER ESSENTIAL CLEANING TIP
Sprinkle Actisorb over the area being cleaned before scrubbing to assist with heavy build-up and grout haze removal.

AP163 T&G Power

Actichem's AP163 T&G Power is a super-strength tile, grout and hard surface cleaner for blasting through tough soil and carbon build-up on tile, grout and concrete. It is a skilfully formulated power pack which bursts through the toughest of hard surface grime in industrial deep cleans and restoration work.

Recommended applications:

Ideally suited for use on all resilient flooring including concrete floors, ceramic tiles, terracotta and grout lines.

Excellent in applications such as industrial kitchens, refuse compactor areas, workshop floors, food processing facilities, bakeries and public eating areas. Do not use or allow T&G Power to contact painted surfaces, non-ferrous metal surfaces (especially aluminium) and polymer coated flooring. Safe on all man-made tiles, natural stone products, grout and concrete at recommended dilutions.
