

**Keep your goal vividly before you at all times.
Obstacles are what you see when you take your eyes off the goal.**

AP985 Fire Fix

Fire Fix is a new technology, solvent free restoration cleaner for the removal of ingrained soils, carbon, soot, fire residues and rubber on hard and semi-porous surfaces. Fire Fix is the cleaner of choice for fire restoration and safety flooring cleaning.

- **Highly Concentrated, Multi-surface, Heavy-duty industrial cleaner.**
- **Multi-task Restoration Cleaner** - For use on floors, walls, carpets, hard surfaces, porous surfaces and many other professional and disaster restoration applications.
- **Safety First** - Fire Fix is a unique non-caustic, solvent-free formula designed to penetrate and lift deeply ingrained soils without presenting any hazards to the operator or the surface being restored.

AP433 Deosan

AP433 Deosan is a proprietary, anti-microbial odour-neutraliser for use in severe mal-odour situations arising from organic waste, urine, faeces, sewerage, pets, flooding or fire damage. The core mal-odour eliminating activity in Deosan is derived from a synergistic combination of powerful biocides and professional odour-neutralising chemistry. This provides the operator with a highly effective two-pronged attack where the odour causing bacteria and spores are quickly destroyed whilst the air-borne mal-odours are absorbed and neutralised.

- **Versatile** – Deosan is highly effective on carpets, soft furnishings and hard surfaces.
- **Residual Fragrance** - Deosan not only combats mal-odours, but also leaves a fresh lingering fragrance. Deosan can also be post-sprayed on carpets and upholstery to deal with any returning mal-odours as a result of wicking up.
