The Actichem Compliance Pack

Durable | Clear | Compliant | Innovative

- Current GHS standard Safety Data Sheets for all products.
- Correctly labeled product application bottles
- Correctly labeled bulk product bottles.
- Staff training on safe chemical usage.
- Safe chemical transfer systems.

The Actichem Restoration Products Division,

Launches another innovative solution, to ensure your processes run smoothly and effectively every day. One of the growing issues in our industry, is the subject of compliance. Complying with laws and regulations, is more than just keeping out of trouble. Compliance ensures the safety of your staff, and your customers is maintained at all times. Actichem can now offer you, a complete solution to ensure 100% chemical compliance, including spare RTU product labels for your pump-up sprayer. Correctly labeled sprayers, means less chance of mistakes happening by using the incorrect chemicals.

Safe Chemical Transfer Systems.

Actichem also supplies a complete range of premium quality, chemical transfer systems. The range includes dispensing taps to suit every application of Actichem bulk chemical packages, and a complete range of premium quality jugs (250ml, 500ml, 1Lt & 3Lt)

SDS - Safety Data Sheet Books

The ultimate convenience, for the team on the road. A printed Safety Data Sheet booklet containing current, GHS standard information. The Actichem SDS booklet is also designed to be personalized to each van. The Actichem SDS books are supplied free of charge, and are packaged in a waterproof document holder.
