

# Actisorb

## Poltice stain absorber

Actisorb is a new technology, neutral powder with incredible stain absorption properties and non-scratch abrasives. Ideal for use in poultice form for lifting stains from porous surfaces. Provides revolutionary stain absorption properties for lifting stubborn, deep-set stains from porous surfaces.

### Description:

Actisorb is a fine white/grey powder with incredible absorption properties. Actisorb is used in cleaning and restoration of stone surfaces.

### Recommended applications:

Actisorb is safe for use on all man-made and natural stone, tiles and grout. Use Actisorb to lift deep set stains and oils from fine stone and masonry surfaces.

### BENEFITS

- **Conveniently Versatile** – Actisorb is an inert, neutral absorption powder and can be mixed with any cleaning liquid to form a poultice. Compatible with solvents and alkalis.
- **Substrate Safe** – Actisorb is safe to use on all tile, stone, grout, masonry and cement surfaces, including sensitive polished granite, marble and limestone
- **A Cleaning Booster** – Specialty non-scratch abrasives are included for additional cleaning power on grout haze cleaning, porcelain wax removal and tough soil build ups.

### Directions for use:

#### Poultice Form:

1. Mix Actisorb with POG to form a toothpaste consistency paste.
2. Cover oil stain with a 10 - 15mm thick layer of Actisorb/POG poultice.
3. Allow to sit for a minimum of 2 hours or until dry. Cover with plastic or similar to prevent direct exposure to sunlight and to prolong drying times.
4. Rinse or brush away.

#### Scourer Use:

1. Mix Actisorb with T&G Cleaner Pro to form a wet paste.
2. Use this paste to remove grout smear, cement, residues or tough, compacted grime build-ups. Scrub with a nylon pad.
3. Rinse well with water after use.
4. Alternatively; apply the relevant cleaning solution to the floor area concerned and sprinkle sufficient Actisorb onto the area to form a slurry. Agitate using a low speed scrubber using a red pad or brush. Extract the slurry and rinse well with water.

### PRODUCT SPECIFICATIONS

**Product Code:** AP151

**Colour:** White/grey powder

**Substrate Suitability:** Consult directions

**Packaging:** 350g & 4kg
