

Hand Sani Gel

Acohol hand sanitiser gel

Hand Sani Gel Alcohol is an effective germ killing agent in a convenient gel form. Hand Sani Gel works fast at killing germs. Hand Sani Gel contains 70% alcohol, which is the optimum level of alcohol, proven to kill nasty germs and help keep you and your family protected. Hand Sani Gel leaves hands refreshed, moisturised and hygienically clean. Just think of all the places you come

into contact with germs. From public transport to traveling overseas, even the simple act of changing your child's nappy. Hand Sani Gel is an ideal way to protect yourself wherever you are.

BENEFITS

- Contains high quality, soft touch skin cleansers, pH balanced to maximise cleansing without irritating the skin.
- Contains high activity moisturisers to keep skin feeling soft and supple.
- 70% ethanol solution has been proved to be extraordinarily effective in the total removal of microorganisms from hands.
- 70% alcohol solution exhibits rapid action on vegetative bacteria, viruses and fungi
- Pleasantly fragranced
- Fast drying and non-sticky.
- Leaves your hands fresh, clean and hygienically sanitised.

WHERE TO USE

Hand Sani gel is ideally suitable for use in hotels, motels, public washrooms, medical institutions, veterinary hospitals etc.

DIRECTIONS for USE

Read and understand the Material Safety Data Sheet (MSDS) before use

Dilution

Bulk fill dispensers should be regularly cleaned with hot water.

Follow dispenser instructions for re-filling with Hand Sani Gel.

- Dispense 5 ml of Hand Sani Gel onto moistened hands.
- Work into hands. Rub in between fingers and on the back of hands.
- Do not rinse. Allow to air dry

Tips

- Keep container closed for maximum performance.
