

# Klenzol

## Manual/Hand dishwashing liquid

Klenzol hand dishwashing liquid has been specifically formulated to give a balanced blend of wetting power, grease cutting, foam formation and skin care. It is ideal for all hand dishwashing applications and a vast variety of other manual cleaning tasks.

### BENEFITS

- **Food Safe** – Klenzol is specifically formulated for use in food environments.
- **Premium Washing Action** – Contains highly effective wetting agents and grease cutting emulsifiers, leaving glassware sparkling without spots or streaks.
- **Skin Friendly** – Contains skin emollients, which combined with its neutral pH is kind on skin and hands.
- **Easy to Use** – Klenzol is highly stable and readily soluble in hot or cold water.
- **Dosing Systems** – Klenzol is ideally suited to dosing systems.

### WHERE TO USE

**Manual Washing** – Primarily used for manual washing of dishes, pots, pans, glassware and cutlery.

**Safe and Effective** – for a variety of cleaning tasks and can be used on work surfaces such as enamel, ceramic, plastic, steel, vinyl, polymer sealed flooring, floor and wall tiles, vehicles, etc.

### DIRECTIONS for USE

Read and understand the Material Safety Data Sheet (MSDS) before use.

#### Dilutions

- **Dishwashing:** dilute 12ml per 10Lt of water (1:800).
- **General cleaning:** dilute 17ml per 10Lt of water (1:600)
- **General floor cleaning:** dilute 40ml per 10Lt of water (1:250)

#### How to use

- Follow standard cleaning techniques.
- Rinsing after use is not normally required unless strong dilutions are used.
- Hot water will dramatically increase the cleaning power of the chemical.
