

Klenzmatic

Automatic dishwashing liquid

Klenzmatic is a professionally formulated auto dishwashing detergent. It is a precise formulation which carefully balances the caustic alkalinity content with water softening agents, scale prevention chemistry and wetting agents to give

an efficient and effective clean with each wash cycle.

BENEFITS

- **A Sparkling Wash:** Klenzmatic is a carefully balanced formulation which produces excellent cleaning results which is boosted by “easy-rinse” chemistry.
- **Safe for Food Environments:** Klenzmatic is specifically formulated for safe use in food environments and complies with food safety requirements.
- **Outperforms:** Klenzmatic provides outstanding emulsification and saponification of fatty oils, grease and typical food soils.
- **The No-Scale Advantage:** even in the most severe hard water areas, Klenzmatic will dramatically reduce scale development, significantly reducing repairs, maintenance, and down time.
- **Versatile:** Klenzmatic is compatible with all automatic dishwashers and liquid dosing systems. Contains corrosion inhibitors to protect machine components and fine crockery.

WHERE TO USE

Dosing Systems – Designed for use through precision dosing systems on industrial dishwashers.

Suitability – Ideally suited for both single cycle and conveyor/tunnel type dishwashers.

Other Dispensers – Suited for venturi driven dosing systems and electronic pump type dispensers.

DIRECTIONS for USE

Klenzmatic is highly alkaline, read and understand the Materials Safety Data Sheet before opening.

Automatic Dishwashers

- Follow the dosing system manufacturer’s guidelines.
- Pre-set the dosing system to automatically dispense 2-3ml or Klenzmatic per litre of water.
- Titration kits for accurate dosage are available.

Tips

- For best results use in conjunction with AP220 Spotless Rinse Aid.
- Regularly check that the warewasher’s temperature settings are correct.
- Regularly check for obstructions in the wash and rinse nozzles.
