

Chloromatic

Chlorinated dishwasher detergent

Chloromatic is a professionally formulated auto dishwashing detergent. It is a precise formulation which carefully balances the caustic alkalinity content with water softening agents, scale prevention chemistry and wetting agents.

Additionally it provides the warewashing operation with powerful chlorine action for effective sanitization and de-staining.

BENEFITS

- **Sanitizes and De-stains:** Chloromatic's powerful chlorine action provides effective sanitization and removes tannin and food staining.
- **Safe for Food Environments:** Chloromatic is specifically formulated for safe use in food environments and complies with food safety requirements.
- **Outperforms:** Chloromatic provides outstanding emulsifications and saponification of fatty oils, grease and typical food soils.
- **The No-Scale Advantage:** even in the most severe hard water areas, Chloromatic will dramatically reduce scale development, significantly reducing repairs, maintenance, and down time.
- **Versatile:** Chloromatic is compatible with all automatic dishwashers and liquid dosing systems. Contains corrosion inhibitors to protect machine components and fine crockery.

DIRECTIONS for USE

Read safety directions before use.

1. Warewasher: Follow the dosing system manufacturers guidelines. Pre-set the dosing system to automatically dispense 2-3ml of Chloromatic per litre of water.

TIPS

- For best results use in conjunction with AP220 Spotless rinse aid.
- Regularly check that the warewasher's temperature settings are correct.
- Regularly check for obstructions in the wash and rinse nozzles.

PRODUCT SPECIFICATIONS

pH: 12 - 12.5

Dilution: Follow manufacturers guide

Fragrance: None

Safety: Corrosive

Colour: Clear, yellow liquid

Packaging: 500ml, 5Lt & 15Lt
