

Ultramatic

Ultra concentrate dishwash detergent

Ultramatic is a professionally formulated, ultra-concentrated alkaline detergent liquid for use in automatic industrial dishwashing dosing systems. It combines high alkalinity and water softening agents with corrosion inhibitors to give an efficient and effective clean with each wash cycle.

BENEFITS

- **Food Area Use** – Ultramatic is specifically formulated for safe use in food environments.
- **Premium Washing Action** – Ultramatic is strongly alkaline and effectively saponifies fats and greases removing all food soils from crockery and cutlery.
- **Super Concentrate** – Ultramatic is a super concentrate formula, giving long term cost efficiency.
- **Scale Prevention** – Ultramatic has powerful anti-scale agents to prevent hard water scale build-up in the interior of the dishwashing machine.
- **Corrosion Protection** – Ultramatic is enhanced with corrosion inhibitors, which protect fine crockery, china and cutlery, in addition to ensuring machine component longevity.
- **Dosing Systems** – Ultramatic is suited to almost all types of liquid dosing systems.

DIRECTIONS for USE

Read safety directions before use.

1. Warewasher: Follow the dosing system manufacturers guidelines. Pre-set the dosing system to automatically dispense 0.7 - 1.2ml of Ultramatic per litre of water.

TIPS

- For best results use in conjunction with AP220 Spotless rinse aid.
- Regularly check that the warewasher's temperature settings are correct.
- Regularly check for obstructions in the wash and rinse nozzles.

PRODUCT SPECIFICATIONS

pH: 13

Dilution: Follow manufacturers guide

Fragrance: None

Safety: Corrosive

Colour: Clear liquid

Packaging: 5Lt & 15Lt
