

# Descaler

## Liquid descaling solution

Descaler is a liquid descaler compound designed to efficiently remove lime scale and other deposits, from kettles, urns, dishwashers and other hard surfaces.

### BENEFITS

- Quickly and effectively removes lime scale and hard water deposits from virtually any heat exchange system.
- Liquid product – easy to use.
- Readily soluble in water

### WHERE TO USE

Use Descaler to remove scale from urns, kettles, dishwashers and any other frequently wet areas where scale has developed.

### DIRECTIONS for USE

Read and understand the Material Safety Data Sheet (MSDS) before use

Pre-test in an inconspicuous location for substrate chemical sensitivity before use.

### Dilution

- Dilute 25ml Descaler per litre of water ( $\pm 1:40$ ) and pour into kettle or urn, ensuring that the element is covered.
- Allow 5-10 minutes contact time and rinse vessel thoroughly with potable water.
- Or simply wash area down, allowing 5-10 minutes contact time and rinse with potable water.

### Note:

- Do not allow prolonged contact with chrome or stainless steel.

### Tips

- Keep container closed for maximum performance.

### PRODUCT SPECIFICATIONS

**pH:** 1- 1.5

**Dilution:** See directions

**Fragrance:** None

**Safety:** Corrosive

**Colour:** Clear green liquid

**Packaging:** 5Lt & 15Lt
