

# Hand-Sani Soap

Antibacterial hand soap

Hand Sani-Soap is a premium quality, liquid hand soap made specifically for use in food preparation areas and medical institutes. Carefully created to be a viscous, pearlized, lathering hand soap incorporating Irgasan DP 300 biocide, it also meets the stringent requirements of food safety regulations. It is pH balanced with a non-irritant, non-soap formula making it the ideal choice for kitchen, and medical facility hand wash dispensers and wherever there is a need for clean hands and bacterial infection control.

## BENEFITS

- Food Safe – Hand Sani Soap is AQIS approved and is ideal for use in food preparation areas.
- Sanitizes – Hand Sani Soap incorporates Triclosan for effective skin sanitization.
- pH Balanced – the pH is carefully adjusted to match that of skin.
- Mild Formula – contains gentle touch cleaners with non-irritant, coconut derived skin conditioners and moisturizers.
- No food taste taint - Carefully formulated without colour or perfume to ensure no after use residue or food taste taint.

## WHERE TO USE

Hand Sani Soap is ideally suitable for use in food preparation areas, medical institutions and veterinary surgeries.

## DIRECTIONS for USE

Read and understand the Material Safety Data Sheet (MSDS) before use

Pre-test in an inconspicuous location for substrate chemical sensitivity before use.

## Dilution

Bulk fill dispensers should be regularly cleaned with hot water.

Follow dispenser instructions for re-filling with Blue Hand Soap.

- Dispense 5 ml of Hand Sani Soap onto moistened hands.
- Work up into a rich lather. Clean in between fingers and use a nailbrush to clean fingernails.
- Rinse hands with potable water and dry on new paper towel.

## Tips

- Keep container closed for maximum performance.
