

Autoplus Super

Premium laundry powder

Autoplus Super is a top of the range, fully built, low foaming, detergent laundry powder for use in all domestic and industrial

machines. Autoplus Super is formulated using high quality oxygen bleaching agents, enzyme boosters, anti-redeposition agents. It is an optimised formula for use in challenging laundry situations where stringent cleaning protocols have to be met. Ideal for hospital, aged care and medical institutions but is also preferred by many hospitality facilities because of its incredible destaining and whitening ability.

BENEFITS

- Compliance – complies with the sanitizing requirements of AS/NZS 4146:2000 Laundry Practice standard with a 5log reduction in the Microbiological Efficacy Testing requirements of BS EN 1276-1997. Independent testing certificates available on request.
- Oxygen Boosted - Colour-safe oxygen bleaching agents brighten/whiten fabrics which have “greyed” from previous washing.
- Low Temperature Sanitizing – Instead of having to wash at over 60°C to ensure sanitising action, the Autoplus Super provides powerful sanitization at 35°C to 45°C.
- Enzyme Boosted – extremely effective in the removal of protein stains, such as blood, wine, faeces, grass, tea, coffee, etc.
- Anti Greying - Ultimate anti-greying action, overcoming rewash requirements especially on white linen.
- Low foaming – suited for use in all washing machines.

Where to use:

- Suited for use in all domestic and industrial automatic machines.
- Excellent for use in aged care community facilities, clinics, hospitals, hotels, clubs, pubs and restaurants.

DIRECTIONS for USE

Read safety directions before use.

CLEANING

- Lightly soiled fabrics: Use 12 - 15g per Kg of washing.
- Heavily soiled fabrics: Use 16 - 20g per KG of washing.
- Soaking: Dissolve 50g in 5 litre warm water and soak soiled fabrics for 2-3 hours.
- Follow machine manufacturer’s directions for cleaning procedures.

TIPS

Keep container closed to retain maximum performance.

PRODUCT SPECIFICATIONS
