

Oxybleach

6% oxygen bleaching agent

Oxybleach 6% is a 6% available oxygen bleaching agent for the destaining and sanitizing of soiled coloured linen and diapers (nappies). Also an effective colour safe laundry booster additive.

BENEFITS

- A powerful fabric destainer, when used at high temperatures (above 60 degrees Celsius).
- Much safer to use than chlorine bleaches.
- Will not damage fabric.
- Safe to use on colours.
- An effective additive to washing powder for stain removal from fabrics.
- Powder product – easy to handle and dispense

Where to use:

- On all crockery, urns, teapots, cutlery and other kitchen utensils.
- As a cleaning booster in laundry procedures.

DIRECTIONS for USE

Read safety directions before use.

DIRECTIONS

- Soaking – table cloths, serviettes, nappies, soiled linen, etc. Dissolve 1 heaped tablespoon in 5 litres of hot water and soak soiled linen for 1-5 hours (or overnight) and then launder as usual
- Booster – Add 1 part Oxybleach to 5 parts laundry powder and launder stained articles at a temperature above 60 degrees Celsius.

TIPS

Keep container closed to retain maximum performance.
