# Who We Are

We're a family-owned company who have been providing high performance cleaning and protection products out of Newcastle, NSW since 1999. Our history of smart innovation in the chemical manufacturing industry dates back to 1978, and our business model is still proudly geared towards continuous improvement and the quest for excellence.

Every member of our team is highly trained to bring you friendly fast delivery, flexibility and product availability. It's smart chemistry, delivered with care.

# What We Do

We specialise in the manufacture of high quality chemicals for cleaning and protecting almost every hard or soft surface. Our products are carefully formulated in our own laboratory, right here in Newcastle, Australia.

High quality products at an excellent price, delivered quickly for your peace of mind.

## Visit the Actichem YouTube Channel!

Actichem is on YouTube!

With videos covering common cleaning challenges, How-To's and much more, subscribe to our channel to make sure you don't miss out.

## Download our Dilution Guide!

The Actichem Chemical Dilution Chart is an excellent resource for busy contractors. Quickly and accurately calculate mixing proportions with this easy to read chart.

# Responsibly Green

## What does GECA certification mean for you?

While cleaning products are important for healthy and appealing living and working conditions, they may also have a negative impact on human health and the environment. For example, they may contribute to health problems such as skin irritation and asthma, and when discharged into waterways, long-lasting toxics can threaten water quality and wildlife.

When a product is certified against Good Environmental Choice Australia (GECA)'s Cleaning Products standard, consumers can be sure that the product has been assessed to meet environmental, human health and ethical impact criteria. GECA certification removes doubt and confusion and makes identifying environmentally and socially preferable products easier.

Cleaning products covered by the standard include general purpose cleaners, sanitary cleaners, laundry cleaning agents and hand dishwashing detergents. Products certified under GECA's Cleaning Products standard also contribute towards achieving credit points for projects being certified under the Green Building Council of Australia's Green Star Performance tool.

## Why buy GECA certified products

### Better for the environment

- Limit on substances harmful to aquatic environments.
- Biodegradability
- Reduced and preferable packaging.
- Lower waste generation and resource consumption.
- No phosphorus
- Support of sustainability sourced palm oil and palm kernel oil.

### Better for human health

- Less harmful chemicals
- Minimised VOC (volatile organic compounds) content.
- Restrictions on fragrances and enzymes.
- No known carcinogens, mutagens or toxins as ingredients.

### Better for ethical considerations

- No unsubstantiated claims
- Workers can expect fair pay, equal opportunity and a safe working environment.

## BATHROOM CLEANER

### All surface washroom cleaner with bio-enzymes

Bathroom Cleaner is a high performance cleaner powered by, biological products, including a blend of naturally occurring bacterial strains that breakdown washroom grime, eradicate bad odours and accelerate bio-degradation of organic debris.

- Cleans, refreshes & eliminates organic waste.
- Digests organic matter at the source and removes lime-scale.
- Destroys bad odours.
- Surfaces stay clean and repel dirt.

*Dilution: 1:50 - 1:100 up to 1:250*

**\$67.00 ex GST**

## SHOWER CLEANER

### The ultimate shower cleaner & sanitiser

The chemistry in Shower Cleaner is a bold step in modern cleaning technology. When using this product, you will discover innovative features that you don't find in any other shower cleaning product.

- Cleans, refreshes & sanitises surfaces by destroying germs.
- Removes lime-scale, soap-scum and grime.
- Contains "Stay-Clean" technology to help surfaces repel dirt.
- Fresh, clean fragrance.

*Dilution: Undiluted up to 1:10*

## What is "Stay-Clean" technology?

### Keep surfaces clean for longer with "Stay-Clean"

The Actichem range of products that contain "Stay-Clean" technology, employ an innovative chemistry which imparts repellency to oily soils, soap-scum, and hard water deposits. Provides spot-free drying and easy-to-clean surfaces. Using "Stay-Clean" technology, means that surfaces are easier to clean, have less stubborn stains and stay cleaner, for longer. How convenient!

## FLOOR CLEANER LF

### Ultra Low Foaming, tile and hard surface cleaner.

Floor Cleaner LF is an ultra-low foaming, tile and hard surface cleaner.

- Low odour
- Suitable for food area cleaning
- Quick grease and oil removal
- Super penetration into carbon build up
- Environmentally friendly

*Dilution: 1:10 - 1:20 up to 1:200*

## NEUTRAL DETERGENT

### Neutral detergent for timber, stone, hard floors & general cleaning

Neutral Detergent employs the latest in nano surfactant technology to create a neutral high performance cleaner which leaves behind no unwelcome haziness, streakiness or slippery residues. Neutral Detergent is an excellent choice for contractors looking for high performance as well as responsible chemistry.

- Perfect for maintenance cleaning and sanitising of floors and hard surfaces.
- Leaves a streak free finish
- Floors cleaned with Neutral Detergent will resist soils and be easier to clean.
- Safe on all surfaces.

## MOULD REMOVER

### Mould remover & sanitiser for all surfaces (RTU)

Mould Remover is a powerful, ready-to-use mould removal solution and sanitiser. Powered by high activity Hydrogen Peroxide, this product works quickly and effectively to exterminate mould, brighten and sanitise surfaces

- Kills 99.99% of all germs and mould
- Removes stains and brightens surfaces
- Destroys bad odours.
- Will not damage natural stone surfaces.
- Also sold as Percide IC (AUSTL364630) Hospital Grade Disinfectant

# THYMOX<sup>®</sup>

## MULTISURFACE

AUSTL 400439

**THYMOX MULTISURFACE** is a ready-to-use Hospital Grade Disinfectant and cleaner made with thymol, a botanically derived active ingredient that leaves a herbal scent.

### KILLS 99.9% OF GERMS

**VIRUS:** Kills SARS-CoV-2, HIV-1, Swine Influenza A, H1N1, RSV\*\*

**BACTERIA:** Kills Staph, Salmonella, Pseudomonas, Listeria, E.coli, Streptococcus, MSRA, Klebsilla pneumonia

**FUNGI, MOULDS AND TUBERCULOSIS:**  
Kills Athlete's Foot Fungus, Bacteria - Tuberculosis

Kills Norovirus

### ACTIVE INGREDIENT

Thymol 0.23%

### MATERIALS COMPATIBILITY

Bins, floors, appliance exteriors, door handles, toilet seats, walls, windows, tables, doors, metal, glazed porcelain, steel, stainless steel, brass, aluminium, sealed concrete, plastic, polypropylene, polyethylene, PVC.

\*Always refer to label directions.

## CRETE CLEAN

### Unique and safe concrete residue remover

Crete Clean provides the action of a tough acid cleaner without the hazards. Ideal for builders cleans and the removal of cement and grout residues.

- Free of traditional acids.
- No acid fumes, burns and metal corrosion problems.
- Fast cleaning action for removing concrete residues and grout smear.
- Safer to use. Non dangerous goods. Biodegradable and phosphate free.

Use on concrete working equipment, machinery and formwork. Brick cleaning, masonry, washrooms, ceramics and man-made tiles.

*Dilution: 1:4*

5Lt  
15Lt

**\$49.50 ex GST**  
**\$131.70 ex GST**

## GROUT RESTORE 20

### Phosphoric acid based speciality cleaner

Detergent boosted solution containing 20% active phosphoric acid. Use to quickly and effectively remove cement and grout residues, mineral scale and efflorescence from concrete, masonry and man-made tiles.

- Specialist grout cleaner
- Has the muscle to tackle grout smear, cement residues, rust, efflorescence and heavy scale or soap scum build-up.
- Ideal for restoration cleaning.

Grout Restore 60 contains 60% Phosphoric Acid, Grout Restore 20 contains 20%.

*Dilution: 1:4*

15Lt

**\$93.05 ex GST**  
**\$259.80 ex GST**

## TILE & GROUT RESTORE

### Restoration cleaner for neglected stone, tile & grout.

Tile & Grout Restore is ultra low pH yet does not contain typical acids such as, Hydrochloric, Hydrofluoric, Phosphoric or Sulphamic, but is more powerful and effective while still being safe and pleasant to use. Ideal solution for removal of embedded grime and stains.

- Low odour, low VOC
- No fumes or chemical burns.
- Exceptional cleaning performance on neglected tiles & grout.
- Cuts through detergent residue build-up, scale and soap scum.

*Dilution: 1:10*

1Lt Chamber **\$25.30 ex GST**  
 5Lt **\$43.45 ex GST**  
 15Lt **\$110.15 ex GST**

## PRONEUTRO

### Nano technology neutral detergent

New technology, neutral pH detergent cleaner specifically designed to remove general grime and soiling from pH sensitive surfaces such as fine stone, terrazzo and polymer coated flooring.

- Non streaking, ultimate maintenance cleaner.
- Ultra low residue. Ideal for use in auto-scrubbers
- Ultra concentrate formulation.

Use for maintenance and general duty cleaning. Safe on all hard surfaces. Ideal for use on polymer coated flooring, timber floors, natural stone and painted surfaces.

*Dilution: 1:100 - 1:300*

500mL **\$25.95 ex GST**  
 5Lt **\$148.90 ex GST**

## STONE SOAP

### Advanced natural stone cleaner

Stone Soap is an advanced specialty formulation for cleaning natural stone surfaces. Stone Soap is ideal for all cleaning applications, but is particularly good when used for post polishing cleans.

- Ultra-concentrated. Easy-to-use solution.
- Environmentally friendly and safe for use on food preparation surfaces.
- Cleans and protects the stone in one simple operation. Leave a micro-coating to resist soiling.

*Dilution: 1:50 - 1:200*

500mL **\$19.15 ex GST**  
 5Lt **\$59.15 ex GST**

## STONE GEL PRO

### Polished surface cleaning gel

Specialty gel formulation for the removal of lime-scale, soap scum and general grime from porcelain, ceramic, marble, granite and fine stone surfaces.

- Safe on all fine stone
- Amazing power to remove water spots
- Polishes while it cleans
- Outstanding oil and grime removal

*Dilution: Ready to use*

500mL **\$37.95 ex GST**  
 5Lt **\$264.05 ex GST**

## TILE & GROUT CREAM

### Nano-colloidal cleaning cream

Nano colloidal cream which works synergistically with the water and solvent based cleaning ingredients. Powerful all-round cleaner for removing grease, grime, porcelain wax, grout haze, paint, graffiti, bitumen, tar, chewing gum, cosmetics and food stains from all resilient hard surfaces.

- Non-toxic and user friendly
- Fast acting wax coating and spot remover
- Fresh clean fragrance
- Removes deep-set grime

*Dilution: Ready to use*

5Lt  
15Lt

**\$69.45 ex GST**  
**\$189.15 ex GST**

## INSTASTRIP

### Premium total floor stripper

Heavy duty stripper designed to remove polish build-up, sealers and UHS burnished finishes. InstaStrip is an economical option for contractors doing routine strip and seal operations.

- Ultra low foam
- Fast action and safe for use on vinyl and linoleum.
- Low odour formulation

*Dilution: 1:3 - 1:5*

5Lt  
15Lt

**\$172.10 ex GST**  
**\$493.35 ex GST**

## POWERSTRIP

### The ultimate floor coatings stripper

When you require the absolute best in floor coatings removal, Power Strip is the answer. Non DG, fast action with maximum power to break down even the toughest floor coatings. A truly remarkable advancement in the chemistry of coatings removal.

- Top power for removing solvent based coatings, base coats & polish build-up
- Low toxicity, Low VOC - Low Odour, Non DG, Fresh fragrance
- Fast, labour saving action

Safe for use on stone, slate, terrazzo, masonry, concrete and most resilient flooring. Do not use timber floors as it may affect the timber seal. Do not use on vinyl or linoleum. Also extremely effective on epoxy grout smear and graffiti removal.

*Dilution: 1:1 - 1:10*

5Lt  
15Lt

**\$180.85 ex GST**  
**\$490.15 ex GST**

## SOLV STRIP

### High performance stripper and coating remover

Super strength solvent based formulation is designed to remove old, tough coatings and will even remove penetrating sealer residue. Solv Strip works quickly and effectively on a wide variety of floor coatings making it a popular choice with contractors.

- Fast action on old solvent based coatings and urethanes.
- No neutralising required.
- Non-flammable.

Can be used to remove penetrating sealers in some cases

*Dilution: Ready to use*

## Stripping coatings

Important considerations when removing coatings

When it comes to coating removal, there are a few points that can make or make the success of the mission.

- Agitation and dwell time are everything.
- Always be careful what stripper you use on vinyl and linoleum. It is easy to damage them with solvents.
- Stripping slate is always difficult. Be sure to test before committing to a slate stripping project.

## INSTASEAL

### Base coat and satin finish

Instaseal is a unique, tough, semi-permanent water based sealer incorporating modern thermoplastic technology, providing a durable surface for interior or exterior applications. Instaseal is formulated to have the dual roles of surface coating and base coat for further applications of polish on porous surfaces. Instaseal protects hard flooring from the detrimental effects of foot traffic and trolley wheels in busy public areas. Exhibits outstanding resistance to water blotching, scuffing and black heel marks.

*Dilution: Ready to use*

5Lt                    **\$122.75 ex GST**  
15Lt                  **\$354.85 ex GST**

---

## INSTAGLOSS

### Repairable, deep-gloss finish

Instagloss is a new generation floor finish with the perfect blend of durability and hardness for traffic, black heel mark resistance and wet look repairability. Being easy to apply and drying to an instant brilliant gloss, makes it ideal for use in institutions, medical facilities, offices, homes, retail outlets and similar facilities. Instagloss has outstanding leveling properties and can be used as a single step finish thus eliminating the need for a base sealer.

*Dilution: Ready to use*

5Lt                    **\$101.90 ex GST**  
15Lt                  **\$292.75 ex GST**

---

## INSTAGLAZE

### Deep-gloss, UHS polish finish

Instaglaze is a floor polish designed to be used in conjunction with ultra-high speed burnishing equipment. Instaglaze is easy to apply and is very quickly restored to a brilliant shine without any need for a spray buff. Instaglaze will provide an outstanding finish using propane, battery, petrol or electric burnishing machinery. Instaglaze is a unique advancement in floor polish technology that is designed for use in high traffic areas that require consistent high gloss and safety underfoot.

*Dilution: Ready to use*

5Lt                    **\$148.30 ex GST**  
15Lt                  **\$431.60 ex GST**

---

## INSTABUFF SUPER

### Spray buff cleaner & maintainer for polished floor surfaces

Instabuff Super is a complete cleaner and maintainer for sealed and unsealed floors. Instabuff Super has been designed to be used as a spray buff as well as a mop-on/ mop-off cleaner and maintainer. Instabuff super will repair and replenish the surface of floor sealers that have been damaged through daily wear and tear. Instabuff Super facilitates easy burnishing, increased gloss and increased slip resistance. Instabuff Super can also be used on unsealed floors to promote slip resistance as well as removing scuff marks and improving stain resistance.

## STONE SEALER PRO

### Ultra versatile, water-based penetrating sealer

This premium quality blend of fluoro-chemical polymers and penetrating agents is the answer to all external sealing applications.

- Water based. Low VOC. Meets criteria for Green Building Council of Australia's Green Star design.
- Outstanding protection against stains caused by oils, water-borne contaminants and organic matter.
- Does not alter the slip resistance or appearance of the stone
- Vapor permeable and UV stable

*Dilution: Ready to use*

## SOLV SEALER PRO

### Nano-molecule, solvent-based penetrating sealer

Nano molecule, penetrating sealer chemistry incorporated in Solv Sealer Pro provides invisible protection to porcelain, low porosity tiles and fine natural stone.

- Protects against stains caused by oils, waterborne contaminants and organic matter.
- Achieves a high level of penetration into dense tile & stone
- Does not alter the slip resistance or appearance of the stone
- Vapor permeable and UV stable

*Dilution: Ready to use*

500mL	<b>\$44.65 ex GST</b>
2.5Lt	<b>\$173.45 ex GST</b>
5Lt	<b>\$322.20 ex GST</b>

## INTENSE PRO

### Colour enhancing penetrating sealer

Intense Pro is a premium quality penetrating sealer which enhances and enriches the natural colour and beauty of all stone types, whilst imparting outstanding stain resistance. Intense Pro also reduces glare caused by polished stone and assists in reducing energy usage through its light dispersing properties.

- Solvent based premium protection against staining.
- Conceals scratches and imperfections in natural stone
- Enhances the natural beauty of stone

*Dilution: Ready to use*

## Penetrating sealers

### What is a penetrating sealer?

Penetrating sealers are loved for their ability to protect natural stone without changing the appearance of the surface.

Penetrating sealers are designed to react with the surface and cure to an invisible finish. Application of a penetrating sealer, involves applying the sealer, allowing it to penetrate and then removing the excess.

5Lt **\$139.20 ex GST**  
15Lt **\$383.25 ex GST**

## DEFENDER WB

### Premium water-based water-repellent and consolidator

Defender WB provides premium, long lasting protection to construction stone. Retains the new appearance of natural stone and masonry by inhibiting the growth of moss, mould, mildew, and protecting against salt attack, weathering and stains. Easy to apply and will provide powerful strengthening action.

- Powerful water repellency helps prevent ingress of damaging salt ions, efflorescence and weathering
- Dramatically extends the serviceable life of construction stone.
- Exceptional performance on pool surrounds and heritage stone. Protects against salt attack.

*Dilution: Ready to use*

500mL **\$29.35 ex GST**  
5Lt **\$182.15 ex GST**  
15Lt **\$509.30 ex GST**

## DEFENDER SV

### Premium solvent-based water-repellent penetrating sealer

Defender SV provides premium, long lasting protection to construction stone. Retains the new appearance of natural stone and masonry by inhibiting the growth of moss, mould, mildew, and protecting against salt attack, weathering and stains.

- Powerful water repellency helps prevent ingress of damaging salt ions, efflorescence and weathering
- Dramatically extends the serviceable life of construction stone.
- Exceptional performance on pool surrounds and heritage stone. Protects against salt attack.

## SYSTEM 7 PAD

### High performance cleaning pads

For innovative and effective hard floor cleaning with dirt pulling impact and huge capacity. The System 7 floor pad provides optimal and economical cleaning success in retail centres, industry workshops, banks, offices, hospitals, airports and indeed wherever there is people and foot traffic.

- Reduced drying time, allowing the cleaned area to be immediately usable.
- Remains tear resistant even when used with structured tiles
- Comes in a variety of sizes including a hand pad.

# Carpet & Fabric Care

Specially-formulated products for carpet and other fabrics that provide dependable results and unmatched quality. We've spent years perfecting our carpet and fabric cleaning technology so you can depend on our products in your cleaning processes right down to the final thread, every time.

# In-tank rinses & emulsifiers

## RINSE PRO

### Neutralising, acid-rinse cleaner

Unique dual purpose acid rinse that delivers powerful cleaning action, whilst at the same time providing the needed pH neutralisation.

- Full strength cleaning power and antiresoiling technology.
- Neutralises alkaline detergent residues and helps prevent cellulosic browning and dye bleed.
- Wool friendly action which exceeds the requirements for safe cleaning of wool and synthetic fibres.
- Fibres are left soft to touch.

*Dilution: 1:100 - 1:300*

## EMULSIFIER PLUS

### High temperature alkaline extraction liquid

Premium quality, innovative emulsifier formulation with a well buffered pH and a unique blend of solvents, detergents and water softeners for creating the perfect rinse solution.

- Powerful removal of oily spots and tracked in dirt.
- Promotes reduced water usage and faster drying of carpets.
- Smarter cleaning at lower costs. Conditions the water for ultimate removal of detergent residues when rinsing.
- Ideal for use in single step cleaning.

*Dilution: 1:400 - 1:800*

## EXTRACTA PRO

### High temperature alkaline extraction powder.

Premium quality, innovative emulsifier formulation with a well buffered pH and a unique blend of solvents, detergents and water softeners for creating the perfect rinse solution.

- Promotes reduced water usage and faster drying.
- Specialty corrosion inhibitors protect equipment components.
- Provides smarter cleaning at lower costs. Versatile option for the busy operator.
- Stays in solution at ultra-high temperatures.
- Conditions the water for removal of soil and detergent residues when rinsing.

*Dilution: 1:700 - 1:1200*

4.5kg  
20kg

**\$118.65 ex GST**  
**\$445.70 ex GST**

## Why use an emulsifier or acid rinse

### Carpet Cleaning - Faster, dryer, cleaner

On its own, water is not a good cleaner, as it has too much surface tension. An Emulsifier or Acid Rinse with good quality surfactants (wetting agents) makes the water wetter improving its ability to penetrate the carpet and upholstery fibres and release the soil making the extraction process much more effective.

# Presprays/Traffic Lane Cleaners

## PERFORMANCE PLUS

### The ultimate multi-task prespray

Performance Plus is one of the most significant breakthroughs in carpet cleaning technology. It brings together outstanding soil suspension, plus all the requirements for the safe cleaning of wool carpets.

- High performance soil suspension. Performance Plus penetrates and breaks down more grime, oils and soil than ever before.
- Woolsafe approved cleaning action which exceeds the requirements for safe cleaning of wool and synthetic fibres.
- Low VOC, non-butyl, non-hazardous formula.

*Dilution: 1:32 - 1:64*

---

## PERFORMANCE GOLD

### A unique blend of high-performance surfactant chemistry for powerful results

Performance Gold provides cleaning and grease cutting power normally only associated with high pH, heavy duty degreasers. Whilst Performance Gold has the power to rip through heavy grime, it will still care for the carpet and rinse freely.

- High performance power to cut through tracked in soils, red dirt and organic matter.
- Ultra concentrate. Economical dilution rates.
- Safe on all wall-to-wall carpet fibres.
- Suspends soils for easy and effective rinsing.

*Dilution: 1:32 - 1:64*

## POLYPROP PLUS

### Advanced cleaning chemistry for olefin fibres

A smart, double-strength formulation with unbelievable soil release power. Provides outstanding results on polypropylene fibres, fire restoration and filtration soil removal. Employs smart chemistry instead of highly alkaline cleaning agents.

- Prevents greying in olefin carpets when used in conjunction with Rinse Pro.
- Low odour formulation
- Outstanding cleaning power.
- Economical in use with a 1:64 dilution.
- Excellent performance in fire restoration.

*Dilution: 1:32 - 1:64*

## WoolSafe & CleanSeal Approvals

## How does the Actichem WoolSafe & CleanSeal approval benefit you?

**Professional Cleaners are given the confidence to clean wool** – as well as advanced generation synthetic – carpets, knowing that they are using certified products, which will not only achieve excellent results, but significantly reduce the risk of expense due to damage.

**Carpet Fibre Suppliers** can be assured that no damage is done to their fibres, including colouring, or any applied finishes by the use of unsuitable carpet maintenance products.

The WoolSafe & CleanSeal symbols demonstrate that the products have been independently tested and have achieved the highest standards in performance and safety.

**Carpet manufacturers and suppliers** can, by specifying that only products approved by The WoolSafe Organisation are used to maintain their carpets, have peace of mind that the useful life of their carpets is not shortened by colour bleeding, bleaching, rapid re-soiling or fibre damage.

**Home & Business owners** can be rest-assured that when they have their carpets professionally cleaned, they can entrust their carpets and rugs to WoolSafe certified carpet cleaning companies using WoolSafe-approved products for cleaning and maintaining them. Carpets made from wool and other quality branded fibres are chosen with care and represent a sizable investment both for home owners and commercial establishments. Such an investment can now be protected by the way the floor covering is maintained.

## ENCAP FINE FABRIC

### The ultimate delicate upholstery & rug cleaning solution

A unique encapsulating detergent that is based on proprietary technology to provide a total solution to upholstery, delicate fabric cleaning. This innovative multi-task product can be used in one of three ways:

- Encapsulation Cleaning - Upholstery fabrics and delicate rugs.
- Low moisture (dry) cleaning - Encap Fine Fabric can be whipped up to produce a rich foam which is then used to dry-clean cotton and linen.
- Wet cleaning of delicate fabrics - For water cleanable fine fabrics, Encap Fine Fabric can be used as a prespray.

Also ideal for leather cleaning before re-nourishing with Leather Conditioner.

*Dilution: 1:16*

## What is encapsulation cleaning

Encapsulation cleaning eliminates the requirement for a wet extraction rinse when cleaning carpets and upholstery. To achieve this, the encapsulation cleaning solution contains specialty, brittle dry-down polymers. A professionally formulated encapsulator will emulsify the oily soil particles and dry down to a totally dry, brittle structure which will not attract other soils and be easily released to vacuuming.

## COLLOIDAL BOOST

### Cleaning solution booster additive

A concentrated blend of the best of modern textile cleaning and stain removal technology. Super wetting agents, penetrants and emulsifiers all combine to provide outstanding stain removal and grease cutting power.

- Super wetting ability when used to boost prespray solutions.
- Amazing stain removal action.
- Excellent emulsification properties
- Excellent penetration into heavy soil build-up.

*Dilution: 10 - 30mL Per Lt*

NANO  
TECHNOLOGY

5Lt **\$74.90 ex GST**

## PEROX

### Stabilised Hydrogen Peroxide

50% concentrate Hydrogen Peroxide

Perox is a specialised product that has a high concentration of stabilised Hydrogen Peroxide for powerful oxygen bleaching and sanitisation.

- Powerful odour removal and sanitisation.
- Extreme stain removal.
- Outstanding sanitisation properties.

*Dilution: 1:8 - 1:32*

## Boosting cleaning solutions

### Don't overdo it!

Remember to stick to the directions for boosting cleaning solutions as set out on the product label. In many cases, adding too much booster, can damage your cleaning solutions stability and have a negative effect overall on the cleaning power.

## Fibre Shield

### PREMIUM WATER BASED CARPET PROTECTOR.

Fibre Shield is an advanced water based fluorochemical polymer providing premium protection for nylon and wool carpeting. It has been professionally formulated to create a durable, highly repellent property to each fibre. This repellent nature which includes specialty red dye blockers, holds spills and stains close to the surface and enables them to be removed before causing permanent staining. Fibre Shield also repels dry soiling, and releases these dry soils to vacuuming which in turn promotes carpet longevity.

- Modern fluorochemical polymer technology provides premium protection against water based stains, oil based stains and general grime.
- Specialty stain blockers provide added protection against acid dye stains caused by red cordial spills.
- Promotes effective dry soil removal, making vacuuming easy and effective.
- Water based low VOC Formula
- Exceeds the specifications for the safe protection of wool.

*Dilution: 1:2 wet carpet, 1:4 dry carpet*

FABRIC SHIELD  
**RTU**  
READY TO USE

### PREMIUM WATER BASED UPHOLSTERY PROTECTOR.

Advanced water based fluoropolymer providing outstanding protection for all types of upholstery. Durable long lasting protection in all applications.

- Makes cleaning easier.
- Water based low VOC formulation.
- Specialty acid dye blockers provide added protection against red beverages.
- Wool friendly.

## FOAMEX POWDER

### Powder defoamer concentrate

Foamex Powder is a professional antifoaming powder which prevents foam formation in wands, hoses and waste tanks. Foamex Powder is an innovative powder silicone compound which is easy and safe to use.

- Fast de-foaming action
- Easy and safe to use.
- Will not affect pH or alter cleaning performance.
- Protects machine components by preventing foam from entering motors and blowers.
- Enhances vacuum performance.

*Dilution: Ready to use*

## Defoamers

Defoamers don't really get all the credit that they deserve. Possibly the quickest and easiest way to destroy a vac motor is through foam build-up getting into the motor. Defoamers are a safe and cost effective measure to protect valuable machinery parts without compromising cleaning power.

# The Ultimate Spotting Kit.

## The contractors choice.

### The Ultimate Spotting Kit

Actichem have released the long awaited Ultimate Spotting Kit. The spotting kit comes packaged in a quality lockable case. The kit includes the following:

- 500ml Spotaway U
- 500ml Actichem CTR
- 500ml Brownaway
- 500ml Citrus Gel
- 500ml Rust Remover
- 500ml Actichem VDS
- 500ml Actichem POG
- 500ml Conquer
- 500ml Protein Spotter
- 500ml Orange Solvent
- 500mL Pet & Flood
- 1kg Oxyboost
- Premium Towel (X2)
- Gum Getter
- Tamping Brush
- Trigger Sprayers (X2)
- pH Test Strips (100 Pack)
- Spotting chart

## ODOURTAK W (CITRUS & FLORAL)

### Thermal fogging odour control solution - Water based

Odourtak SV (solvent) and Odourtak W (water) are formulated to be applied through thermal fogging equipment primarily for treating strong, stubborn odours caused by smoke and soot. This process can be used for initial knock-down on job entry and once fire remediation wash down has been completed.

The heated thermal fogging process creates micro-droplets to mimic the passage of micro-smoke particles as they have deposited in the tiny pores of affected surfaces, providing extremely effective results.

- The Odourtak formulary employs high purity glycols and solvents to facilitate maximum aerial-suspension, penetration into micropores and a platform for aerial smoke odour molecules to be neutralized.
- Destroys bad odours.
- Formulated for use on smoke odours caused by timber, paper, protein and synthetic fires.

*Dilution: Ready to use*

**Citrus** is best for smoke odours caused by protein, paper and timber fires.

**Floral** is best for smoke odours caused by plastic and synthetic fires.

# Odour Control

## Innovative chemistry for total odour control

Bad odours ruin perception, reputation and profits. Eliminating them can be a tougher task than meets the eye. Actichem's comprehensive suite of odour control solutions provides the professional remediation technician with the best of mal-odour elimination chemistry.

### **Elimotech – Innovative Chemistry for Total Odour Control**

Even after an odour source is removed and eradicated by oxidation, disinfection or enzymatic action, stubborn mal-odour molecules remain suspended in the air, trapped in porous surfaces and fabric yarns. These can include sulphide, mercaptans, keratins and cadaverine and putrescine.

**The Elimotech chemistry, eliminates these obnoxious compounds at a molecular level.**

### **How Elimotech “molecular-pairing” works**

Elimotech neutralises mal-odour molecules using molecular-pairing technology. The natural-based Elimotech molecules react with mal-odour molecules and form a new, neutral, odourless molecule which cannot be reversed.

### **The Process is as Important as the Product**

To be confident of success it is crucial to follow proven methodology when eradicating odours. This always starts with removing maximum amount of the odour source. Then the residual mal-odour molecules need to be eradicated and finally a replacement scent to reset the olfactory senses.

#### **Remove the Odour Source**

##### **Smoke**

Remove with vacuum, specialty detergents & oxidizers.

##### **Organics**

Remove with biocides or bacteriologic enzymes.

Smoke & Soot  
Rotting Organics & vegetation  
Body Fluids  
Animal Waste  
Food Waste & Beverages  
Mould

#### **Neutralise the Mal-odour molecule**

**Elimotech** technology provides unique, molecule-pairing technology for complete neutralisation

Chemically alter the mal-odour molecules trapped in porous surfaces and fibres.

#### **Provide a Replacement Scent**

**Elimotech** provides a fresh range of scents designed to reset the olfactory senses.

Re-set the olfactory senses with a fresh and different, replacement fragrance

# Bio-Hazard & Trauma

Bio-hazards, disease and trauma scenes require one thing above all others, and that is infection control. The Actichem range of products provide peace of mind first and foremost. Hospital Grade Disinfection comes standard when you choose Actichem.

## BIOSAN II® Ready-To-Use AUST L332364

### Bio-hazard & micro-organism decontaminant

An anti-microbial decontaminant for use in heavy duty restoration situations where bacteria, viruses, spores, moulds and yeasts are prevalent because of flooding, body fluids or organic waste.

TRAUMA, Category 3 WATER and BIO-HAZARD DECONTAMINATION

Biosan II not only rapidly penetrates the contact surface but has an extremely high tolerance of organic soil. This contributes to its incredible biocidal efficacy. In trauma, black water and other decontamination applications, Biosan II is a highly effective bactericide and surprisingly economical to use. At recommended dilution rates Biosan II is active against gram positive and negative bacteria, moulds, spores and enveloped viruses. Biosans powerful cleaning action provides added versatility.

## PERCIDE AUST L332284

### Mould & micro-organism decontaminant

Actichem's Percide (AP610) is an advanced peroxide based disinfectant for the eradication of mould and decontamination of infectious environments.

TRAUMA, Category 3 WATER and BIO-HAZARD DECONTAMINATION

Percide's primary function is to provide rapid, powerful pathogen eradication even in the presence of organic soil. Promoting this function is Percide's deep pore penetration ability, making it the ideal decontamination and restoration tool for trauma, category 3 water and bio-contamination applications.

Percide leaves no oily or toxic residue and can be left as residual after clean-up is complete. Percide is active against gram positive and negative bacteria, moulds, spores, enveloped and non-enveloped (lipid & non-lipid) viruses with super-rapid kill rates.

- Advanced Peroxide formula.
- Penetrates deep into the substrate for complete treatment.
- Cleans, destains and removes odours.

*Dilution: Ready to use*

## OXYBOOST PLUS

### Oxygenated additive for cleaning, destaining & deodorising

A super concentrate, oxidising compound designed for use as both an additive to cleaning solutions and a stand-alone product. Oxyboost Plus provides powerful oxidising activity to cleaning solutions with particular application in stain removal and deodorising.

- OxyBoost Plus will provide powerful stain removal action on stains which other stain removers leave behind. Especially on tannins, coffee, colour stains such as fanta, cordial, grass stains, and many organic stains such as blood.
- Brightens colours.
- Destroys bad odours.

*Dilution: 10 - 30g per Lt*

1kg **\$36.10 ex GST**  
5kg **\$99.10 ex GST**

## CLEAN FORCE

### Enzyme boosted powder detergent

Super-concentrate prespray powder with powerful enzyme cleaning action for tackling tough organic and greasy soiling. Clean Force employs a well buffered alkaline salt blend combined with powerful solvents, surfactants, emulsifiers and sophisticated enzymes to break through tough soil build-up.

- Low VOC profile means no unpleasant vapours.
- Powerful grease cutting and protein based soil removal.
- Specialised enzyme technology that withstands high temperatures and provides maximum cleaning action on tough soils.
- Ultra concentrate formula means excellent cost savings.

*Dilution: 1:64 - 1:100*

4.5kg **\$104.10 ex GST**  
20kg **\$391.15 ex GST**

# Mould Removal

Mould - Unsightly nuisance or silent killer?

Truth is, it is both! Mould can directly lead to severe health issues and in some cases even death. The Actichem mould removal products are possibly the most advanced solutions worldwide, they work quickly and achieve a perfect result.

## HYPO ENFORCER

### Booster for extreme mould removal

Actichem's Hypo Enforcer is the core proprietary ingredients used to make Mould Exterminator the amazing product that it is. This unique technology super-charges the cleaning system in three ways: - it activates the chlorine molecule, provides super-wetting and powerful emulsification to break through the associated soiling. Simply add Hypo Enforcer to liquid chlorine (or liquid chlorine diluted 1:1 with water), to immediately super-charge the power of the chlorine molecule, and drive that power right down deep into the mould roots and hyphae and thoroughly destroy it.

- Kills mould, roots and hyphae
- Penetrates deep into the substrate for complete treatment.
- Cleans, destains and removes odours.

clean fragrance

## Before & After photos

# Mould Exterminator

Why does Mould Exterminator work so much better than standard chlorine or high pressure cleaning?

## Pool Chlorine (Sodium Hypochlorite)

### Treated with Chlorine

(And/or subjected to high pressure cleaning)  
When active mould is sprayed with chlorine, the chlorine will go to work on destroying the surface of the mould.

### Visible mould dies

(or is physically removed by high pressure cleaning)  
Only the mould that came directly into contact with the chlorine dies. Roots remain healthy.

### Mould regrowth is fast

The mould quickly grows back due to the roots being unharmed and the treatment is required all over again.

## Mould Exterminator

### Treated with Mould Exterminator

When active mould is sprayed with Mould Exterminator, the product will penetrate deep into the mould and the surface it is growing in to ultimately attack the roots.

### Mould & roots are killed

The entire mould plant and its roots die and the surface is left with a residual chemical which helps to prevent any regrowth.

### Surface remains mould free

Zero regrowth of mould and the surface remains beautifully clean.

# Flood Clean-Up

For when prevention wasn't an option.

The Actichem flood clean-up products and associated carpet care products, equip the restoration professional with a formidable arsenal to restore flood affected properties quickly and effectively.

## BIOSAN II®

### Mould, flood & micro-organism decontaminant

An anti-microbial decontaminant for use in heavy duty restoration situations where bacteria, viruses, spores, moulds and yeasts are prevalent because of flooding, body fluids or organic waste.

TRAUMA, Category 3 WATER and BIO-HAZARD DECONTAMINATION

## BIOSAN II WIPES

### Hospital Grade Disinfectant Wipes

Biosan II Wipes employ the same Biosan II formulation used for hospital grade and COVID-19 disinfection. Now in the convenience of a high quality wipe. Ideal for use on smooth, hard surfaces to destroy and guard against bacteria and viruses.

- Kills bacteria & viruses.
- Effective against a wide spectrum of micro-organisms, including: Coronavirus SARS-CoV-19 (COVID-19), Pseudomonas aeruginosa, Proteus vulgaris, Escherichia coli, Staphylococcus aureus, Aspergillus brasiliensis

*Dilution: Ready to use*

80ct Flowpack (12/carton) **\$9.85 ex GST**

## PERCIDE

### Mould & micro-organism decontaminant

Actichem's Percide (AP610) is an advanced peroxide based disinfectant for the eradication of mould and decontamination of infectious environments.

Percide also displays incredible biocidal activity against bacteria and viruses. When evaluated against the Hospital Grade disinfection test and the AOAC Hard Surface Carrier test it achieves total microorganism elimination in only 60 seconds.

- Advanced Peroxide formula.
- Penetrates deep into the substrate for complete treatment.
- Cleans, destains and removes odours.

*Dilution: Ready to use*

750mL **\$27.40 ex GST**  
5Lt **\$55.10 ex GST**  
20Lt **\$162.70 ex GST**

## KWIKSAN

### Alcohol based sanitising spray

Kwiksan is a quick and effective sanitiser spray that is non-conductive and can thereby be used on electronics and many other sensitive surfaces.

- High alcohol content (72%). This is the optimum level required for germ killing.
- Powerful germicidal action.
- Cleans and sanitises hard surfaces.
- Dries quickly
- Ideally suited to cleaning and sanitising keyboards, phones, lenses, mirrors, glass, microphones, tools and electronic equipment
- Contains an innovative, high-performance polymeric wetting agent.

*Dilution: Ready to use*

500mL **\$16.80 ex GST**  
5Lt **\$91.45 ex GST**

## Understanding Disinfectants

### How long are disinfectants active on the surface

One important factor understand when selecting the correct disinfectant for your application, is that some disinfectants will claim to remain active on the surface for a long time. Residual disinfectant activity has been proven to be very susceptible to being compromised by touch and external conditions.

500mL  
5Lt

**\$13.75 ex GST**  
**\$49.05 ex GST**

## HAND SANI SOAP
