

Stains on Carpets

A facility manager's ultimate guide for effective stain removal.

Fresh Spots

All spots under 7 days old (except chewing gum, bitumen, blue tack)

PRODUCTS

Conquer

Conquer is an exceptional stain remover for carpets and upholstery, effective on a wide range of water-based and oily stains. It features anti-resoiling encapsulation technology and focuses on fibre care. Utilising the latest polymer and surfactant technology, Conquer consistently delivers impressive results.

EQUIPMENT

To remove fresh stains from carpet & upholstery, you will need:

- Carpet spotting brush.
- White terry towel.

PROCESS

- 1. Apply Solution**
Spray apply the Actichem Conquer to the stain, making sure the fibers are completely wetted out.
- 2. Agitate Stain**
Agitate the stain by tamping up and down with a spotting brush to maximize penetration.
- 3. Blot**
Blotting with a white terry towel will improve results.
- 4. Allow to dry**
No rinse is required. Allow to dry for 24-48hours. Maintenance dry vacuuming will remove the dry chemical and stain residues.

FURTHER NOTES

User Safety

Actichem Conquer is a very safe product to use, however it is always advised to wear gloves when spot cleaning. Avoid contact with eyes.

Fibre Safety

Actichem Conquer is safe for use on all fibres and fabrics. However, delicate fibres can be discoloured by being overwet, so take care. Furthermore it is advised to pretest when spotting delicate fibres to check for chemical sensitivity and colour fastness.

Large Spills

Large spills of beverages, vomit or urine

Note:

The Conquer O2 also has powerful sanitising action against microorganisms found in body fluids

PRODUCTS

Conquer O2

Conquer O2 is a powerful stain remover for carpets and upholstery that also kills germs and eliminates odors. It combines the oxidizing power of oxygen with wetting agents and encapsulating polymers to tackle the toughest stains. Utilizing the latest polymer and surfactant technology, Conquer O2 consistently delivers reliable and dependable results.

EQUIPMENT

To remove large stains from carpet & upholstery, you will need:

- Carpet spotting brush.
- White terry towel.

PROCESS

Coffee, wine, cola, beverages, food

1. Apply Solution

Spray apply the Actichem Conquer O2 to the stain, making sure the fibers are completely wetted out. If the spill has penetrated deep into the carpet ensure that sufficient solution is applied to reach it.

2. Agitate Stain

Agitate the stain by tamping up and down with a spotting brush to maximize penetration.

3. Dwell

Allow 10 minutes dwell time.

4. Extraction

Rinse extract the carpet with a spotting machine.

5. Shadow Removal

If there is a shadow left, apply Conquer O2 and absorb or vacuum (no water) extract excess moisture, leaving the treated area slightly damp with Conquer O2. The oxidising and encapsulating action of Conquer O2 will continue to work over the next few hours as it dries completely, removing the remaining stain.

6. Residual Removal

The dry Conquer O2 residues will be brittle enough to be removed the next time the carpet is vacuumed.

FURTHER NOTES

User Safety

Actichem Conquer O2 is a low hazard product in use, however it is always advised to wear gloves when spot cleaning. Avoid contact with eyes. Rinse skin with water if skin contact occurs. Read the safety directions on the labels.

Fibre Safety

Actichem Conquer is safe for use on all synthetic fibres and fabrics and most wool. Avoid using Conquer O2 on delicate cottons and silk. It is advised to pretest when spotting delicate fibres to check for chemical sensitivity and colour fastness.
