

Pet & Flood Elimo

New generation urine decontaminant

The new Pet & Flood Elimo blends the trusted urine decontamination chemistry of Pet n Flood with the high performance Elimotech odour neutralisation technology.

This multi-pronged approach delivers unmatched urine crystal dissolution, targeted anti-microbial action, proven odour neutralisation and stain removal.

Benefits

Innovative Chemistry

Innovative formulation which provides total urine decontamination encompassing stain, odour and bacteria removal.

Stain Removal

Carefully selected blend of low pH salts neutralize tough urine crystals and remove the stain from the fibre. Compatible with hydrogen peroxide for removing "impossible" stains.

Decontamination

The organic acids and biocidal action provides total elimination of bacteria such as E-Coli found in urine deposits and body fluids.

Browning Removal

Provides high performance removal of cellulosic browning caused by flood, excessive wetting and high alkalinity.

Dynamic Penetration Feature

The inclusion of super wetting and penetrating agents ensures rapid and effective wetting of fibres and organic waste

Fibre Safe

Safe for use on all natural and synthetic fibre

Pet & Flood Elimo

New generation urine decontaminant

ACIDIC

Solution

Stops odours from returning after cleaning completed:

Pet & Flood Elimo solves two of the biggest challenges carpet cleaners face with urine contamination: odours returning after cleaning and the need to use multiple specialty products.

By dissolving urine crystals, eliminating bacteria and neutralising odours at the source, it prevents odours from reappearing days later.

One product, complete solution:

When combined with hydrogen peroxide, cleaners can tackle urine stains, odours and contamination using a single treatment system, simplifying the process while delivering complete decontamination.

Directions For Use

For PROFESSIONAL use only. Always pre-test in an inconspicuous location for substrate sensitivity.

Application

1. Remove, by steam extraction as much of the urine spill as possible, doing extra dry vacuum strokes.
2. Apply Pet & Flood Elimo 1:1 for severe contamination or dilute up to 1:4 for lesser effected areas.
3. Spray apply this solution onto the fibre or fabric until it is wetted out.
4. Agitate solution using a carpet rake or upholstery cleaning brush.
5. Allow 10 – 20 minutes reaction time.
6. Rinse extract using Actichem Rinse Pro.
7. Allow to dry. Assist drying by increasing ventilation.

Additional Information

- Some stubborn urine stains may require treatment using Hydrogen Peroxide (eg Conquer O2 or Spotaway U)
- Or add 60ml Perox per rtu litre of Pet n Flood Elimo for maximum stain removal power.

Product Specifications

Product Code:	AP491EI
pH:	2- 3 RTU
Colour:	Clear Yellow
Fragrance	Fresh Floral
Safety:	Warning
Packaging:	500ml, 5Lt & 20Lt
