

System 7

Fire Restoration Pads

Creating safe, clean and healthy environments,
through innovative chemistry.

Smart chemistry that cares.

The System 7 Benefits

Innovative Benefits

- Fast and effective soot and smoke residue removal.
- Excellent results achieved in mould removal applications. Ensures that spores are thoroughly removed from surfaces.
- Pads can be rinsed out and re-used over and over again.
- Considerable reduction in costs through reduced employment of labour and chemistry, as well as an attractive pad life-span.
- Provides outstanding results on painted surfaces, natural stone, ceramic, porcelain, ceilings and much more.
- Stained surfaces shine like new. Greyed tiles appear white again.
- Detergent free and odour free. Suitable for use in food areas.

Cleaning Benefits

- System 7 is highly effective. The innovative micro-splitting procedure cleans deeply without detergents or solvent and leaves no residue.
- System 7 removes all dirt residues including oil, fat, rubber abrasion, grime, detergent residue and limescale.
- System 7 cleans without damage to the substrate being cleaned, including marble and fine stone.

Chemistry Benefits

System 7 chemistry is incredibly easy to use. The pad system is complimented by the innovative Fire Fix & Fire Restore chemical solutions, which have been carefully designed for total compatibility with the pad.

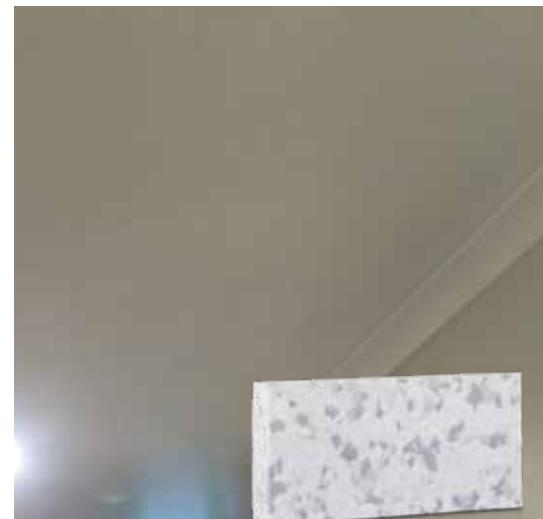

The System 7 Applications

System 7 can be used in a vast number of applications. System 7 is incredibly popular choice because no major process changes are required. The only changes you will notice are the cleaner surfaces and the time and money savings. Some of the most common surfaces and applications that System 7 can be used on include the following.

During fire clean-up

Finished result

Soot & smoke

Mould removal
