

DualSan Foam

Cleaner Sanitiser HD

A product of choice for a wide variety of cleaning tasks in the food manufacturing and hospitality industry.

DualSan Foam is a novel, alkaline degreasing cleaner which combines foaming and sanitising action in a unique blend which overcomes traditional kitchen substrate corrosion issues.

BENEFITS

Food Safe Formula.

Complies with the requirements of FSANZ 3.2.2

Powerful Sanitisation

A three-pronged sanitising system targets fungi and bacteria common to food areas. Also strong action against viruses.

Cleaning Power

Heavy duty cleaning activity on starches, proteins, food fats and oils, baked on carbons and general grime.

High Foam Formula

For use with professional foaming equipment for wall, floor & ceiling cleaning. Ideal for manual cleaning of food manufacturing surfaces and equipment.

Free Rinse Formulation

Easy to use. Minimal chemical residual

Low Odour In Use

No fragrance added and no solvents.

Surface Safe

Safe for use on virtually all kitchen surfaces. Contains a dual corrosion inhibitor system. Contains no solvents – safe on rubber, plastics and most paints.

WHERE TO USE

Food Manufacturing Facilities

Walls, floors, ceiling & manufacturing equipment.

Safe and Effective

For a variety of cleaning tasks and can be used on work surfaces such as enamel, ceramic, plastic, metal, stainless steel, vinyl, rubber, floor and wall tiles, etc. Certain paints may be effected – such as vehicle paintwork – pretest before use.

DIRECTIONS FOR USE

Dilutions:

- **General & Equipment Washing**

Dilute 10ml to 30ml / Lt water

- **Foam Wash**

Dilute 20ml to 40ml / Lt water

Note

Depending on the foam generator unit used and the water quality, the dilution for foam washing may need to be altered. Start with a dilution of 30ml/Lt and adjust up or down accordingly.

Sanitisation

- **Clean & Sanitise**

Use at 1:50 (20ml/Lt) or stronger to achieve positive sanitisation when cleaning and sanitising in one step.

- **Sanitise Clean Surface**

Use at 1:100 (10ml/Lt) or stronger to achieve positive sanitisation on pre-cleaned surfaces.

Dwell time – 10 minutes
