

# Rust Extractor

Rust remover for natural stone,  
concrete & tile.

**A powerful, acid-free solution designed for fast and safe rust removal from natural stone, concrete, and tiles.**

Rust Extractor is a specialised rust remover formulated for natural stone, concrete, and tiles. It provides an acid-free solution for safely eliminating rust stains from various surfaces, including dense and polished materials.

## BENEFITS

### Fast and Effective Removal

Quickly eliminates all types of rust and oxidation, ensuring thorough cleaning on various surfaces.

### Deep Penetration

Reaches deep into dense materials, making it ideal for complex rust removal from porous surfaces.

### Acid-Free Formula

Safe for use on delicate materials, including polished surfaces, without causing etching or dulling.

### Versatile Application

Suitable for all types of stone, offering flexibility across different stone surfaces.

### Surface Protection

Preserves the integrity and finish of both polished and non-polished surfaces, delivering gentle yet powerful rust removal.

## SOLUTION

Rust Extractor solves the problem of rust staining on natural stone, concrete, and tiles. Its advanced formulation ensures complex rust removal without damaging the surface finish, delivering a safe, reliable, and efficient cleaning solution.

## DIRECTIONS FOR USE

Always pre-test in an inconspicuous location for substrate sensitivity.

### Dilution

Ready to use. No dilution necessary.

### Application:

1. Apply Rust Extractor directly from a squeeze bottle onto the surface being cleaned, or onto a damp cloth or scourer pad.
2. Spread over the area being cleaned.
3. Allowing 5 - 10 minutes contact time will increase cleaning efficiency. Do not leave for longer than 10 mins.
4. Scrub well and rinse with clean water.
5. Repeat process if necessary.

## ADDITIONAL INFORMATION

### Product Reaction

When Rust Extractor contacts rust, it turns purple, signaling the start of the reaction. This color change indicates that the product is actively breaking down the rust for effective removal.

### Residue Removal

If any residue product colouring remains on the surface this is easily removed with an oxidising agent like Oxyboost Plus or chlorine bleach like Chlorosan or Mould Exterminator.

### Disposal Information

Any excess Rust Extractor must be disposed of responsibly, ensuring it does not enter waterways. Please follow environmentally friendly disposal methods to protect the environment.

## PRODUCT SPECIFICATIONS

<b>Product Code:</b>	AP154
<b>pH:</b>	9
<b>Colour:</b>	Colourless
<b>Substrate suitability:</b>	Hard Surface Only
<b>Safety:</b>	Warning
<b>Packaging:</b>	500ml & 5Lt
