

Deozyme Plus

Enzyme powered urine & organic decontaminant

Deozyme Plus is formulated with a powerful combination of synthetic enzymes and a four strain blend of active bio-enzymes.

It provides unmatched urine crystal digestion, stain removal and incredible odour neutralization power, not only due to the elimination of the odour source but also thanks to the innovative ElimoTech chemistry.

Benefits

Complete Solution

The Deozyme Plus chemistry provides a complete solution for tough organic and urine situations. Including aged care, animal shelters and more.

Stain Removal

High performance, select enzyme action digest stubborn urine crystals and remove the toughest stains.

Odour Elimination

Powerful biologic quad-enzyme action digests organic odour sources, whilst ElimoTech odour neutralising formula works by odour pairing on a molecular level.

Wide Application

Instantly eliminates the stench of decaying matter, urine, necrotic tissue, sewage and human / animal remains.

Ideal for Hard-to-Reach places

Deozyme Plus continues to work long after it appears dry. Ideal to leave on hard-to-reach places. Suitable for use almost all hard and soft substrates.

Fibre Safe

Safe for use on all natural and synthetic fibres.

Fresh Residual Scent

A fresh floral scent, resets the olfactory sense.

Solution

Stops odours from returning after cleaning completed:

Deozyme Plus solves one of the biggest challenges carpet cleaners face with urine contamination: odours returning after cleaning.

By digesting urine crystals and organic residues at the source, it eliminates the contamination that causes odours to reappear days later.

Its deep-acting enzyme system also allows cleaners to treat hidden contamination in backing, underlay and hard-to-reach areas, making it ideal for severe urine situations such as pet contamination, aged care facilities and heavily affected rental properties.

One product, complete solution

Directions For Use

For PROFESSIONAL use only. Always pre-test in an inconspicuous location for substrate sensitivity to chemicals. Deozyme Plus is safe when used as directed. SHAKE WELL BEFORE USING.

Application

1. Use Deozyme Plus undiluted for severe situations. Dilute 1:1 with clean water for regular and lighter applications.
2. Apply this solution onto the fibre or fabric until it is wetted out. Ensure the solution reaches all affected surfaces.
3. Agitate solution using a suitable brush.
4. Allow 10 – 30 minutes reaction time.
5. Rinse extract. Allow to dry. Assist drying by increasing ventilation.
6. Deozyme Plus solution can be left as a residual on hard-to-reach places such as under base plates, etc.

Additional Information

- Use of hot water, bleach, and chlorinated products may kill the active bacteria in this product. Do not mix or use Deozyme Plus with any other product.
- Some stubborn urine stains may require treatment using Hydrogen Peroxide (eg Conquer O2 or Spotaway U).

Product Specifications

| | |
|----------------------|------------------|
| Product Code: | AP536 |
| pH: | 7-8 RTU |
| Colour: | Clear Tan Liquid |
| Fragrance | Floral |
| Safety: | Warning |
| Packaging: | 500ml & 5Lt |
